

The Next Generation – mentoring in school-led ITE

The evidence shows that a significant factor in the success of initial teacher training and induction is the quality of in-school mentoring. This session will explore how you can enhance mentoring provision in your school or cluster to improve the learning outcomes for the next generation of teachers. Uniquely, it offers tools for building new teachers' skills in being mentored as well as for enhancing the skills of mentors in gradually handing over responsibility for learning to new teachers.

The workshop will:

- develop your understanding of the underpinning rationale for mentoring
- to give you the confidence to adapt tools and processes to match the needs of your mentee
- develop your skills and abilities as a mentor enabling you to give top quality support to your professional learners and encourage their independence

This workshop is designed for:

- Primary and Secondary ITE/NQT mentors and senior leaders with a responsibility for ITE, CPD, induction and/or leader of mentors.

You will learn to:

- Deepen your understanding of the skills of effective mentors
- Explore a range of tools and resources which support the development of these skills
- Explore a range of tools and resources **for your mentees** to make effective use of their mentors thus increase their independence as learners.
- Engage in practical activities to apply your skills

The CUREE guarantee

Our facilitators will:

- Make research and evidence accessible and useful focusing on high leverage strategies
- Provide tools to sustain learning and help staff refine strategies in the light of pupil responses
- Introduce learning in a way that is active, engaging and helps with the collection of evidence about staff learning to support the evaluation of impact
